

从互联网受限的国家/地区的 Android 系统进行连接

Step 1

步骤 1 请前往 Google Play 商店下载并安装 AnyConnect 应用程序：[点击此处下载](https://play.google.com/store/apps/details?id=com.cisco.anyconnect.vpn.android.avf)
<https://play.google.com/store/apps/details?id=com.cisco.anyconnect.vpn.android.avf>

步骤 2 打开 AnyConnect 应用，然后点击“连接”。

步骤 3 点击“添加新的 VPN 连接”。

步骤 4 在“服务器地址”中输入您首选的 VPN 地址（您可以在[此处](#)找到所有服务器地址）。然后单击“完成”。

← Connection Editor

Description
Not Set (Optional)

Server Address
https://tw-tai.ipdatafone.net/

Advanced Preferences
Change advanced certificate and protocol settings

CANCEL DONE

步骤 5 选择您创建的连接配置文件，然后打开 AnyConnect VPN。

AnyConnect

VIRTUAL PRIVATE NETWORK

AnyConnect VPN
Disconnected

Connections
https://tw-tai.ipdatafone.net/

CISCO

步骤 6 输入您的 PrivateVPN 注册电子邮件地址作为用户名。

AnyConnect

Please enter your username.

Username:

your registered email address

CANCEL CONNECT

步骤 7 输入您的帐户密码。

AnyConnect

Please enter your password.

Password:

your password

Show password

CANCEL CONNECT
